

# There are benefits to standing out in a crowd.

New STABILOY® WIDESTRIPE™ XHHW-2 phase-identified feeder cable from Alcan Cable wears its stripes with pride – and why shouldn't it? With STABILOY® aluminum alloy conductors that weigh half as much as copper conductors of equal ampacity, WIDESTRIPE™ XHHW-2 is not only easy to identify, it's also easy to lift and handle during installation. But it's not only easy on contractors.

Like every Alcan Cable product, WIDESTRIPE™ XHHW-2 contains no harmful components such as lead or other heavy metals\* in its insulation, so it's also easy on the planet.

**STABILOY® WIDESTRIPE™ XHHW-2 from Alcan Cable... See the difference.**
