Connecting Buyers and Sellers of Electrical and Utility Equipment

A close-up photograph of a hand with weathered skin and short, worn fingernails, firmly gripping a thick, braided metal cable. The cable has a corrugated, spring-like appearance and is wrapped in black and red insulation at the end. The background is a plain, light-colored surface.

**STABILOY®**

# Lock in your **PROFITS** with a **STABILOY** CABLE.

You can quote feeder cable jobs at today's copper prices all day long. But estimating **what** the cost of copper will be when you finally **land** those jobs is a different story. Chances are it will be much higher...and that can hurt your bottom line.

That's why **STABILOY**® aluminum alloy is the superior choice. You get stable pricing from a stable manufacturer. Our **STABILOY** feeder cables are 100% tested for quality to ensure reliable performance.

Why take a chance on copper when you can be sure with aluminum alloy? Choose **STABILOY** feeder cable and lock in your profits!
